

Position: Director Operations and Asset Management

Location: Greater Toronto Area, Canada

Working with the VP Asset Management you will oversee and manage site-specific Facilities Services & Property Management Sub-contractors, who have responsibility for day-to-day facilities operations and planned preventative maintenance. You will monitor and manage contract performance and ensure best practices are applied to maximize building lifecycle and plant operations.

Ideal candidates will have extensive knowledge and experience in contract and KPI performance management, strong facility operations, client liaison and contract management and monitoring in a hospital setting. Knowledge of hospital operations and experience in working in a mission-critical environment that operates 24hrs a day, 365 days a year, are desired attributes.

You will be a strong effective communicator, creative thinker, have excellent project management skills. The ideal candidate will have at least 10 years facility management and operational experience in a healthcare setting. Engineering qualifications are preferred.
